

Conversation Programming

Instructor

Lucas Soares

AI Engineer at Otovo

Specialist in LLM Applications & Computer Vision

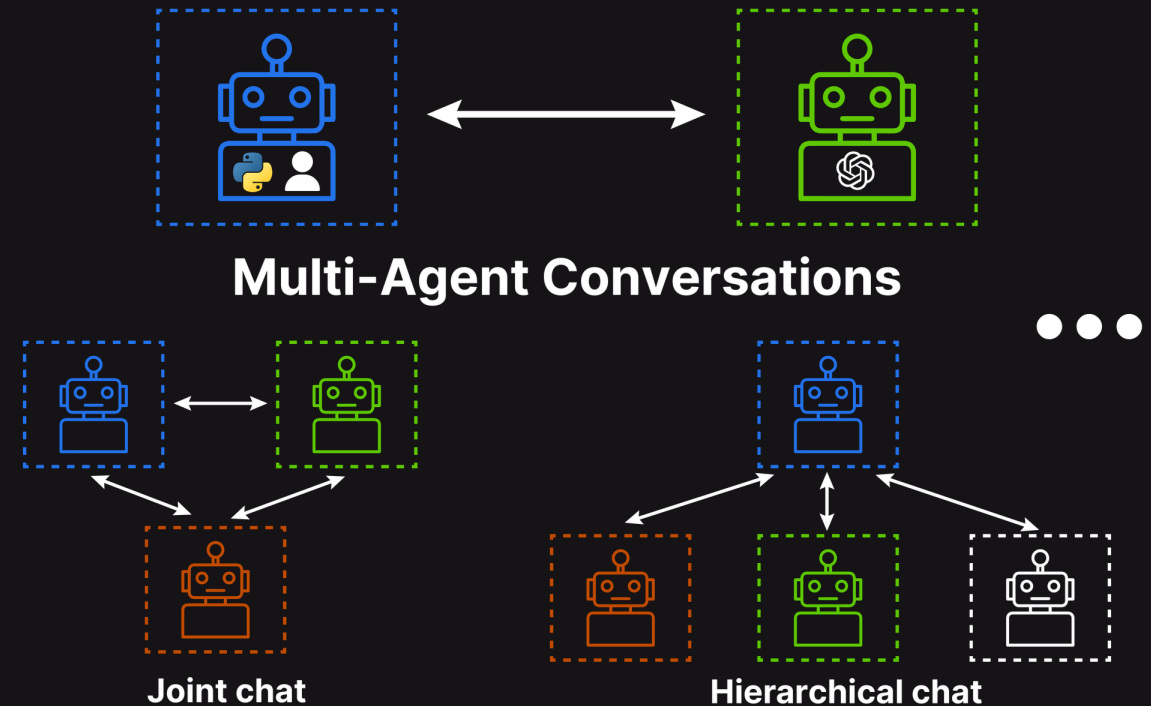

Instructor at O'Reilly Media

Technical Writer & Content Creator

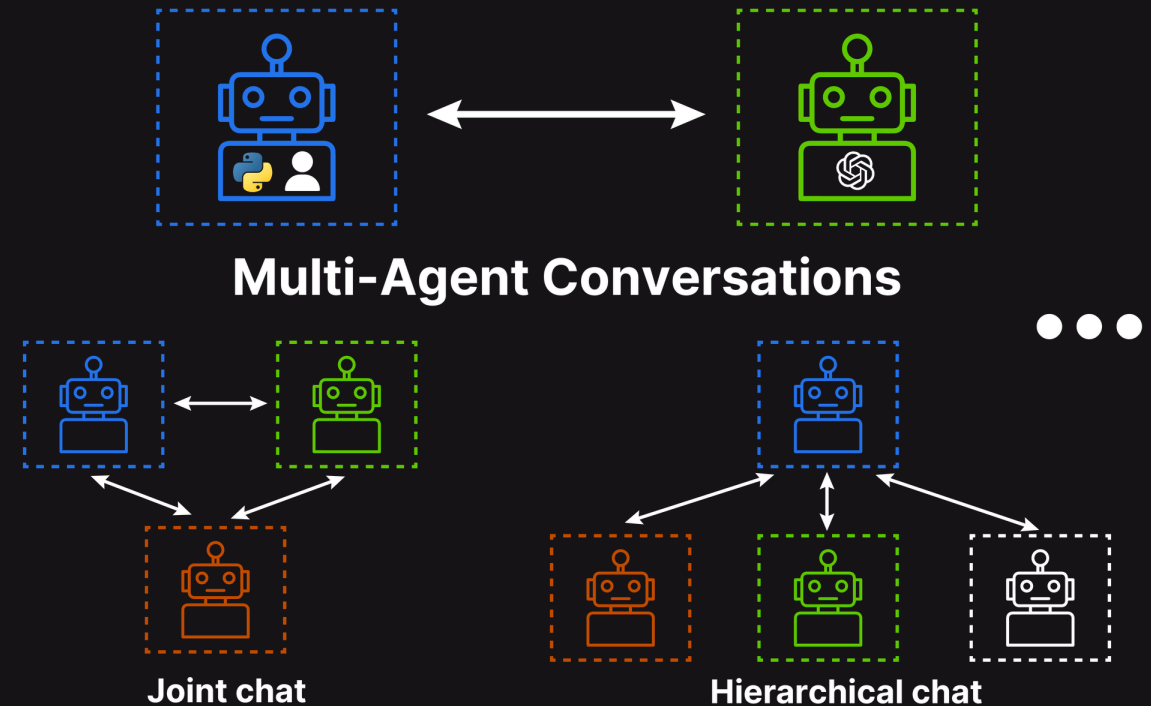

Conversation Programming

- Paradigm that blends computation and control flow within multi-agent conversations.
- Merges programming and natural language control.

Conversation Programming

- **Computation:** Role-specific, conversation-centric actions.
- **Control Flow:** Defined by conversation dynamics among agents.
- **Efficiency:** Streamlines AI development for various skill levels.
